

Dynamic elegance: e-motion pure Silver

It shimmers silver: the e-motion, with its characteristic dynamic silhouette, captivates with its delicate guilloché pattern on the metal barrel. A writing instrument with the potential to become a timeless classic thanks to its minimalist look and cool design. To cater to different writing preferences, the series comes in four models: The ballpoint pen has a twist mechanism which allows the large-capacity, black refill with line width B to be extended and retracted. The fountain pen, with its high-quality stainless steel nib, promises pure writing pleasure. The rollerball pen and twist pencil with 1.4 mm leads complete the series.
