

## Dino fever: Colour pencil sets with trendy motif

Attention little dino fans: Faber-Castell presents the classic Jumbo and Colour Grip colour pencils together with metallic colours in the trendy dinosaur look. So let's go on a colourful adventure to times and worlds that no one knows about and where anything is possible - ideal for unlimited painting and crafting fun.

The high pigmentation makes the break-protected leads of the colour pencils particularly bright; the familiar triangular shape takes the strain off children's hands and the patented grip zone guarantees a secure and non-slip grip. All sets also include a fun sticker sheet with dino motifs - a great surprise and a sweet gift idea for every Jurassic World fan.
